### • **SURFACE PREPARATION**

1. Surface should be stable , firm, and dry; free from laitance,dust, loose flaking materials and old paints, dirt, grease, wax, and other contaminants.
2. All cracks, chips, voids and damages should be repaired using “Echo interior putty”
3. Apply one coat of “Echo Primer Sealer”.
4. Level the surface by using “Echo interior putty” and sand the surface after drying.

5. Apply two coat of “Echo acrylic emulsion”, Leave minimum 2 hours between coats
6. Using the special short pile roller, apply “Echo Perla” (diluted with 10% water) to create the base in all directions over the surface.
7. Allow the coat to dry before applying a second coat ( and if necessary a third coat) using the short pile roller.
8. By Using a blade or rendering tool, spread out the “Echo Perla” in order to obtain the special effect.

## • **INSTRUCTIONS FOR APPLICATION**

- **Special knife, Brush , and roller**
  - Thinning / Cleaning of Tools
  - Thinning Ratio
- : Water  
: %10 (can be increased or decreased depending on desired pattern).

## • **COLORS**

- as per product's catalogue

## • **PACKING**

- 1 US gallon- 1 Kg
